TO WHOM IT MAY CONCERN

The Saint Lucia Air and Sea Ports Authority (SLASPA) held a retreat for employees of the Engineering Department in February, 2024. The retreat was facilitated by Shan-Phil Training Institute, a professional and success driven organization, dynamic experts, objective driven and the ability to foster collaborative learning. The areas of focus were:

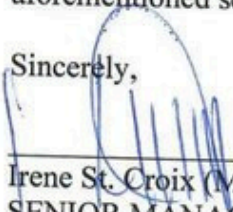

- Conflict Resolution/Management
- Emotional Intelligence
- Team Building
- Relationship Management + Building Trust
- Effective Communication
- Customer Service / Stakeholder Management
- Maintaining proper Work|Life Balance
- Accountability
- Crisis Management
- Setting and Meeting Goals
- Time management
- Priority Management

From the outset, it was evident that they had meticulously prepared for the retreat, tailoring the training content to meet the specific needs and challenges faced by our team. Their ability to engage participants and foster a collaborative learning environment was truly impressive, and their enthusiasm for the areas of focus was contagious.

Furthermore, the approachable demeanor and open communication style created a supportive and inclusive atmosphere, encouraging participants to ask questions, share ideas, and collaborate with their colleagues. The feedback received from the team has been overwhelmingly positive, with many expressing gratitude for the valuable skills and techniques they acquired during the retreat.

We can therefore, comfortably recommend their business as an excellent provider of the aforementioned services.

Sincerely,

Irene St. Croix (Mrs.)

SENIOR MANAGER – HUMAN RESOURCE
